Main Office Rm 220

September 2026

Mst Sanjida Alam
Graduate Student, MS-GIS Program
Graduate School of Geography
Clark University

Dear Sanjida,

I am pleased to provide this letter confirming that you were awarded a Graduate School of Geography MS-GIS Travel Award in the amount of $500 to support your participation in the American Geophysical Union (AGU) Annual Meeting 2025 held in New Orleans, Louisiana.

The Graduate School of Geography provides travel support to assist MS-GIS students in attending professional conferences and meetings that contribute to their academic and professional development. Your participation in AGU 2025 represented an important opportunity to engage with scholars, researchers, and practitioners from across the geosciences community while furthering your educational and professional goals. The award funds were provided to help offset expenses associated with conference attendance and travel.

This letter serves as official documentation that the travel award was approved and disbursed to you in support of your attendance at the AGU 2025 conference. According to our records, the funds have already been issued.

If you require any additional documentation regarding this award, please feel free to contact me.

Sincerely,

Yaa Poku
Associate Director of Academic Operations
School of Climate, Environment, and Society
